Product **Description**

The ViewSonic VX2858Sml is a 28" Full HD 1080p display designed for entertainment and multimedia applications. Equipped with SuperClear Pro technology, true 8-bit colours, and a 3000:1 static contrast ratio, the VX2858Sml delivers superior colour performance with excellent colour reproduction at nearly any viewing angle. Dual MHL ports enable seamless connectivity and simultaneous battery charging of MHL-enabled mobile devices—facilitating easy content sharing and mobile gaming on a larger screen. The MHL ports can also be used as HDMI ports for basic connection to gaming consoles, set-top boxes, and other multimedia peripherals, while a VGA port provides legacy connectivity. ViewSonic's proprietary Flicker-Free technology and Blue Light Filter helps to eliminate eye strain from extended viewing periods. Delivering the ultimate in screen performance and advanced connectivity options, the VX2858Sml is a premium entertainment display for the most demanding of users.
