

# SureColor SC-F9300

An evolution of Epson dye-sublimation technology that allows you to produce colourful textiles more quickly and at an even higher quality.

The SureColor SC-F9300 64-inch dye sublimation textile printer is designed for fast, high-volume clothing, textiles and soft signage production, as well as other printed merchandise. This new flagship model offers an evolution of trusted Epson print technology that provides even better quality and reliability.

#### Improved print quality

The SC-F9300 offers brand new Precision Dot technology for dye sublimation including a halftone module, look-up tables and micro-weave, delivering an instantly noticeable difference to print quality, while straightforward setup means quality results right out of the box.

#### A fast, complete solution

Now offering print speeds of up to 108.6m<sup>2</sup>/h, the SC-F9300 provides a complete Epson solution, comprising printer, inks, sublimation papers and software, that maximises uptime, with improved take-up and other reliability features to minimise common problems such as cockling and head strike.

#### Any colour you like

The SC-F9300 uses dedicated UltraChrome DS inks which, combined with a wide CMYK input profile, ensure the maximum possible colour gamut, for accurate reproduction of even the most complex and colourful designs.

#### Safe to wear

The SureColor SC-F9300 comes with Oeko-Tex Eco Passport certification<sup>1</sup> and has passed Japan's AZO test for household products, meaning that clothing and textiles produced on the printer using UltraChrome DS inks are completely safe to wear for adults and children, including babies.
