

The Shure BLX188UK/CVLX-K14 Dual Wireless Microphone System offers an incredibly flexible solution ideal for presentations and performances which require 'hands-free' operation, including two Shure CVL lavalier microphones with transmitter body packs and a single combined receiver. From vocal performances to conference presentations, the CVL lavalier microphone neatly clips onto clothing, providing consistent and clear vocal reproduction allowing you to concentrate on the show. The BLX1 bodypack transmitter ensures the smooth and seamless transmission of signals without the loss of audio quality and clips neatly out of sight. Featuring professional quality sound combined with reliable and intuitive user operation, the BLX188UK/CVL-K14 system allows the use of a both lavalier microphones alongside each other using BLX88 dual receiver.
