

See more. Do more.

Optimise collaboration and the viewing of special applications with a reliable, highly adjustable monitor featuring wide viewing angles and a 16:10 aspect ratio.

A bigger view, top-to-bottom

Get larger screen real estate: work easily on a 19.5" 16:10 screen that has 4.79% more active viewing area than a 19" 16:10 screen.

Collaborate on one screen: an ultra-wide 178°/178° viewing angle ensures that imagery stays sharp and colors are consistent for you and viewers sitting next to you.

Get more from custom applications: If your office is running applications designed to support a 16:10 aspect ratio, the Dell 20 Monitor – P2016 displays those applications the way they were intended, helping to maximize productivity across your office.

Convenient and easy to use

Full adjustability: work comfortably with tilt, pivot, swivel, and height adjustment capabilities.

Easy integration: a VGA port makes it easy to connect to legacy PCs.

Digital connectivity: connect to newer PCs using DisplayPort 1.2 or to an external keyboard, mouse or hard drive with two USB 2.0 ports.

Designed to be reliable and eco-conscious

Pixel perfection: the Dell 20 Monitor – P2016 comes with our Premium Panel Guarantee¹. Should you experience a single bright pixel on your monitor during its warranty² period, you will receive a replacement panel.

Eco-conscious design: the Dell 20 Monitor is a BFR/PVC-free monitor (excluding cables), and it has an arsenic-free and mercury-free panel. Plus it uses more than 25% post-consumer recycled materials in its chassis. It also meets the latest regulatory and environmental standards, including ENERGY STAR, EPEAT Gold, CEL and TCO Certified Displays.
